3. [redacted] Talked with Senator Milton Young indicating that the individual he had given me additional information on two days ago, in fact was associated with the Agency. I gave him a general indication of the type person and salary level. The Senator readily saw the dilemma he was in in dealing with the parents of the young lady concerned. It was agreed, however, that he would restrict his information to the parents to the fact that he had verified the individual was associated with the Government at a relatively modest salary level. The Senator thanked me for our assistance on this.

4. [] Talked with Bernard Fensterwald, staff of the Administrative Practice and Procedure Subcommittee of Senate Judiciary Committee, concerning the wiretap bills. He indicated that Senator Long's bill (the Administration's bill) is clearly dead and that in all likelihood the full Committee would report out the McClellan bill, S. 675. Fensterwald indicated it is possible that the Committee, for other reasons, might report the Hruska bill which is very similar to the McClellan bill except that it does not have in it the wording changes desired by NSA and CIA as does the Long bill and the McClellan bill. Fensterwald also stated that as recently as ten days ago, Senator Hart was still expressing considerable concern about the uncontrolled activities of CIA.

Sourwine said he would not insist on a report and noted that in this morning's hearing Senator Eastland had stated that he would not keep the record open for Executive Branch reports which had not been submitted by the end of the hearing. Sourwine regarded this as an open invitation not to file a report. I told him that under these circumstances we would not plan to file a report.

25X1

1. [] Talked with Senator Milton Young concerning a letter to him from a publisher friend of his concerning the recent article in RAMPARTS magazine discussing Garrison's activities in New Orleans. After some discussion and explanation of the work of the Warren Commission, its membership, and affidavit submitted by John A. McCone as Director of Central Intelligence, the Senator thought he had enough to deal with an appropriate letter to his correspondent.

25X1

25X1

Senator Young then discussed with me further the case of [] who, although stating he was born in Jordan and is now a naturalized citizen, Immigration and Naturalization can find no appropriate record. I will check a couple of other sources and be back in touch with the Senator.

Also talked with Chris Sylvester, in Senator Young's office, concerning the letter to me from [] 20 February 1968. In essence that letter indicates he is unhappy in his AID job and would still like to be considered for employment by the Agency. Advised Mr. Sylvester we would keep them advised of any developments in the case.

25X1

25X1

2. [] Talked with Representative Philip Philbin asking whether he could see any possibility of his Subcommittee conducting hearings on the Agency retirement bill. Mr. Philbin seemed very well disposed to the idea indicating that he did not think it would take very long since they had gone over the material before. He stated he would talk to the Chairman about this on his return from Charleston and be in touch with us. Subsequently, I alerted [] of my conversation with Mr. Philbin.

3. [] Talked with Russ Blandford, House Armed Services Committee staff, to ascertain if there were any plans for a meeting with the Agency Subcommittee. Blandford advised that things had been thrown out of schedule by the Chairman's sudden departure for Charleston because of the death of a close personal friend but that he would speak to the Chairman when appropriate and advise.

25X1

4. [] Talked with Mr. Robert Michaels, House Appropriations Committee staff, inquiring if there was any possibility of re-establishing the proposed meeting of the CIA Subcommittee at the Agency. Mr. Michaels pointed out they are in the midst of their posture briefings from Defense at this time but that once these would be coming to a close, he would raise this with the Chairman again.

25X1

5. [] Talked with Mr. Darden, Senate Armed Services Committee staff, who advised that Chairman Russell had left the hospital today. Mr. Darden stated the Chairman has been coming in for very short visits during recent days. It does not appear that the Chairman will assume the full range as Chairman for some time to come.

25X1

6. [] Talked with Jim Kendall, Senate Preparedness Investigating Subcommittee staff, to ascertain if there were any better readings on possibilities of hearings before the Subcommittee. Kendall stated that with Senator Russell's absence, Senator Stennis is fully occupied and this remains most indefinite.

7. [] Colonel Outlaw called from the Office of Secretary of Defense, Legislative Affairs, inquiring about [] clearance status of members of the staff of Senate Appropriations Committee. I informed him that Scott, Woodruff and Hewitt have this clearance.

8. [] Talked with Ken Sprankle, House Appropriations Committee staff, explaining why he got a call yesterday from a clerk in [] office (Office of Finance). I pointed out this was merely a routine check on whether he still occupied the same position but that in any event it was contrary to standard operating procedures for such a call to be made to him. The transcript will be retained in the Agency for safekeeping, subject to the call of the Chairman.

Mr. Michaels noted in passing that the Committee schedule is such that he will be ready to receive a 1969 budget justification whenever it is ready and commented that it might be well if the RDC presentation be made before the CIA Subcommittee, which is completely familiar with the background in this connection. He observed that SWITCHBACK would probably be better handled by the military.

12. [redacted] At his request, met with Mr. James Wilson, Technical Consultant, Subcommittee on Manned Space Flight of the House Science and Astronautics Committee, who advised that Chairman Teague and the Subcommittee had discussed at some length need for Agency briefing at this time on the status of the Soviet manned space program. The Chairman would appreciate, if possible, a prepared document on information that could be released on the floor of the House. He added, however, that if we should have any comments or suggestions which we might want to offer on an informal basis they would be happy to receive them. OFFICE OF LEGISLATIVE COUNSEL

1. [] Met with William Darden, Senate Armed Services Committee staff, mentioning the inquiry we had received from Gordon Neese, of the Committee staff, on behalf of Senator Symington on an item which appeared in the AERO SPACE magazine. Darden was aware of the query and Neese's contact with us and suggested that we go ahead and handle this directly with Neese.

I also discussed with Darden some of the factors pertaining to the background of the recent NEW YORK POST article having to do with the Director's briefing of the House Appropriations Committee. I took up with Darden the question of the Agency's holding, for safekeeping, both copies of the transcript of the Director's briefing of the full Senate Armed Services Committee on 18 January. Darden said he would like to hold this transcript until the Military Posture briefings were concluded. Darden said he also had some other highly classified material concerning the Agency which he wished to return to us for safekeeping or destruction.

25X1

2. [] Met with Gordon Neese, Senate Armed Services Committee staff, and gave him a briefing on the information which he would need in responding to a query from Senator Symington on an item which appeared in AERO SPACE magazine (see Journal of 15 February 1968). This was cleared with the Director and coordinated in advance with the DD/S&T and [] Neese did not require extensive information and felt that what I had given him would be sufficient for the Senator's purposes.

25X1

By way of follow up to his attendance at the Director's recent briefing of the full Committee, Neese was briefed and signed secrecy agreements on two areas of compartmented information.

3. [] John Hurley, Bureau of the Budget, called several times in connection with the Agency letter to the Bureau of the Budget, dated 7 February 1968, incorporating comments on the draft bill to facilitate entry of temporary visitors. We had indicated that we had no objections but noted several possible problems. In effect, Mr. Hurley was asking that our letter be withdrawn or that it be recast to eliminate statements on the possible problem areas. I advised that we would go into the matter further and be back in touch.

4. [] Met with Ed Braswell, Senate Armed Services Committee staff, by way of follow up to his attendance at the recent briefing of the full Committee given by the Director. Braswell was given the additional security briefing required for receipt of this information and signed the appropriate secrecy agreement.

Mr. Braswell asked if the Agency had a legislative program this year. I told him that, of course, we were still anxious to get congressional action on our legislative package which had been introduced in the House last year. I told Braswell that we were pursuing this in the House and would hope that with favorable House action, the bill would then be approved by the Senate before the end of this Congress. Braswell indicated that there were several items in the bill which, as we knew, troubled the Chairman but gave the impression that with clarification of these items some action might be expected.

1. [] Mr. Robert Michaels, House Appropriations Committee staff, advised that he had checked on the matter of request for information on the []. He said in fact it had come up twice in connection with the investigative staff of House Appropriations both in their review of communications in DOD and in DIA. However, it was an informal query and there are now no outstanding requests and if they should develop they would not be under the aegis of the Chairman. The Chairman needs and desires nothing on this at this time.

Delivered to Mr. Michaels a copy of the NEW YORK POST article of 14 February. Mr. Michaels indicated that Mr. Mahon and Mr. Laird and others were queried about this by the press at the close of yesterday's Subcommittee meeting. Mr. Mahon acknowledged that the Director had appeared for the annual background briefing and indicated he had not made the statements attributed in the POST article. Mr. Laird went further stating flatly the Director did not say "chance of 100-year war" but he, Laird, had said it during the meeting. Mr. Michaels also advised that the President had talked with Mr. Mahon during the evening on this matter.

Thursday - 8 February 1968

- 25X1 1. [] At Senator Milton Young's request, 25X1
[] and John Warner met with him for approximately an hour
to brief him on the situation in Vietnam and also on the PUEBLO matter.
25X1 Previously the Senator had inquired if we had any record of []
[] being associated with the Agency. After checking with Personnel
and Security, I advised the Senator that we had no record of any kind
concerning this man. The Senator was very appreciative of our coming
by to brief him.
- 25X1 2. [] Miss Ballenger, in the office of
Representative J. J. Pickle, called asking that the Agency professional
brochure be forwarded to her for a constituent of the Congressman's.
This was done.
- 25X1 3. [] Delivered to Mr. Robert Michaels one copy of the
transcript of the Director's testimony before the House Defense Appropriations
Subcommittee on 7 February 1968.
- 25X1 4. [] Met with Miss Rosalie Sevier, Assistant
to Representative Page Belcher (R., Okla.), concerning the Tulsa World
editorial of 22 January concerning possible sale of counterpart funds to
American travelers going to Europe. Miss Sevier thanked me for coming
by and indicated she would discuss the matter with Mr. Belcher and
recommend that the question be raised with the Department of State. If
any further word or assistance is desired, she will call me.
- 25X1 5. [] In response to his telephone call, I
attempted to meet with Mr. Robert Wells, Assistant to Representative
Charles Chamberlain (R., Mich.), but he was away from his office this
afternoon.

6. [redacted] Mr. Jerome Koenig, in the office of Representative James H. Scheuer (D., N. Y.), called and inquired whether the FBIS publication is available for public use. I explained the nature of the FBIS White Book and said that it was not classified and that it was available in Repository Libraries of the Library of Congress as well as the Library's Document Expedite project. This seemed to satisfy Koenig's immediate need for a request which he said was on behalf of a constituent.

6. [] Accompanied [] to a briefing of Senator Ernest Hollings on the PUEBLO. [] gave the Senator a briefing which included the background developments leading up to the stationing of the PUEBLO off of Korea. The Senator had no quarrel with this but pressed us with regard to the options which were available to the United States to secure the release of the ship and its crew. He accepted the fact that this involved decisions by the policymakers but felt as an intelligence agency we should have some suggestions or options. We discussed the dilemma in general terms but again indicated that decisions on future actions were not Agency determinations. The Senator thanked us for meeting with him and I invited him to visit the Agency again at his earliest convenience. He said he did not wish to bother the Director personally but inferred he would like to discuss this matter with him some time if he were on the Hill for some other purpose.

25X1 interest was in establishing a contact between [] and the Agency.

25X1 6. [] Talked with Senator Stuart Symington by way
of follow up to his conversation with the Director on the subject of the
Agency's long-range plan. I advised the Senator that Mr. Helms had planned
to see him personally on this but was tied up with briefings and White House
sessions. I told the Senator that while the classification of the document
precluded my leaving it, I would be happy to bring it to him for his review
at any time. The Senator said this was a particularly busy time for him,
that he understood the security situation and suggested that we let this ride

I thanked Mr. Clark for his time and he said he was pleased to help.

25X1

6. [] Talked to Jay Sourwine, Chief Counsel, Senate Special Subcommittee on Internal Security, concerning the proposed Internal Security Act of 1968. Sourwine noted that Senator Eastland is in the hospital with the flu and the bill will not be introduced until next week, which gives us more time to make any desired changes. I specifically went over Title 6 with him and he agreed to the changes we propose. I also noted there are other problem areas which we will discuss with him after we have studied the bill further. Sourwine was completely cooperative and said he was certain language can be worked out to correct any areas in the bill which cause problems.

Mr. Murphy said that a time had not been discussed with respect to the annual briefing of the Joint Committee. He is quite certain this will not come up for the next few weeks. He said they had become completely disgusted with both State Department and the Defense Department and their handling of requests from their office on this subject. I told Cohen I thought this was primarily a matter of timing, that I would be in touch with our people to determine when the situation would be sufficiently stabilized to provide a useful briefing and would be back in touch with him.

He indicated this would include only breakfast and lunch but not dinner. He also would like some assistance in connection with transportation. I told him this was fine and we would work out the details.

Blandford also inquired about a recent collision of a U.S. destroyer and a Soviet merchant ship. I indicated that from what was now known there was relatively little damage to either. He seemed a little concerned that neither the Agency nor DIA had mentioned this yesterday since the incident had occurred on Wednesday. I passed the thrust of this to Admiral Taylor.
